

Requesting to Leave Survivor Alliance Feedback Form

It is sad to see you leave our membership but could we talk about this?

RESILIENT RELATIONSHIPS

We believe that healthy and resilient relationships are central to social justice work. Relationships that are resilient can withstand conflict and challenges. People within the relationship can discuss how their actions impact one another. Healthy relationships include celebration of one another, seeking to understand, and the ability to mend hurts.

Resilient relationship is one of our values at SA and we are happy to have a discussion with any of our members about their reasons for wanting to leave our membership.

Yes I would like to discuss my reasons.
