

## The Allies Training

The Allies Training, created by Survivor Alliance, is aimed at educating allies on ethical and equitable engagement with survivors as colleagues.

It addresses the growing interest in survivor engagement within anti-trafficking circles and the need to prevent harm and re-traumatization. The training is particularly beneficial for individuals seeking to transition from treating survivors as beneficiaries to working with survivors as colleagues but have experienced barriers in accessing the fundamental knowledge and basic tools to do so. This is a good starting place for people who want to supervise survivors as consultants and interns.

## What do we mean when we say Allies?

When we say “Allies” we refer to those who do not have lived experience of human trafficking and who function within the anti-trafficking sector and inter-sectional work as advocates to survivors of all forms of human trafficking and modern slavery.

*“The Allies Training stands as an essential cornerstone in the realm of professional survivor engagement. It imparts invaluable insights that become the very foundation of our values, seamlessly woven into our daily interactions with survivors and others with lived experience. Through accountability and the compassionate ‘calling in’ of our colleagues, this training sparks an enduring commitment. It’s not a one-time event— instead, it’s the beginning of a dedicated journey, promoting education, and championing ethical equality within our communities and within ourselves.”*
